CAPABILITY STATEMENT · 2026

Canadian Digital Partners Inc.

Indigenous-owned AI and software engineering firm · Vancouver, British Columbia

CCIB Certified Indigenous Business | Indigenous Business Directory | PSIB set-aside eligible

COMPANY OVERVIEW

Canadian Digital Partners (CDP) is a 100% Indigenous-owned and controlled technology firm. We build and assess AI, software and data systems for federal and provincial governments, prime contractors and Canadian businesses. Systems are built to be explained, monitored and audited after launch, with client data kept in Canada.

CORE COMPETENCIES

Applied AI and Intelligent Automation

Predictive models, document and form intelligence, workflow automation, model validation, drift monitoring and AI readiness assessment.

Software Engineering

Full-stack web and application development in Python, JavaScript, React and Java. Systems integration, platform migration with data reconciliation, technical due diligence.

Cloud and Infrastructure

Cloud architecture, migration and DevOps, with Canadian data residency and sovereign hosting.

Trustworthy Data and Connected Systems

Data architecture, IoT and sensor pipelines, provenance and audit trails, and data governance aligned to the OCAP® and CARE principles.

DIFFERENTIATORS

Indigenous content, documented. Named Indigenous resource for primes, with ownership documentation and consent to pre- and post-award audit.

Responsible AI by design. Work aligned to the federal Directive on Automated Decision-Making and BC's Responsible AI Policy Framework.

Canadian by architecture. Data residency, minimal collection, and no client data used to train models.

Direct delivery. The engineer who scopes the work delivers it.

ENGAGEMENT MODEL

Fixed-fee assessment first, with a written analysis the client owns. Then fixed scope and fixed fee, milestone-based net-30 terms. Available as prime contractor or subcontractor.
